PRODUCT BESCHRIJVING

The new X-CUT S83G is a semi chisel, 3/8" pitch, .050" gauge, guarded chain designed, built and tested right next to our Husqvarna Kettingzagen. A robust and pre-stretched semi-chisel chain with guarded drive link for reduced kick-back and with a sharpness that lasts longer, high cutting efficiency and less need for maintenance, all saving you both time and costs. Thanks to the semi chisel cutter profile it's less sensitive to dirt and easy to file. Like all X-Cut Kettingen it's equipped with a golden tie-strap, indicating the logger where to start and stop filing. With this reliable X-CUT chain you will be ready to cut more in less time straight out of the box.
